### Emergency and first-aid procedures

**Eye contact:** If irritation or redness develops, move victim from exposure source and into fresh air. Flush eyes with water for fifteen (15) minutes. If symptoms persist, seek medical attention.

**Skin contact:** Wash affected areas with mild soap and water. Remove contaminated shoes/clothing. If symptoms persist, seek medical attention.

**Inhalation:** If respiratory symptoms develop, move victim from exposure source and into fresh air. If symptoms persist, seek medical attention. If victim is not breathing, begin artificial respiration. If breathing difficulties develop, oxygen should be administered by qualified personnel.

**Ingestion:** Dilute with liquid unless the victim is unconscious or very drowsy. Do not induce vomiting. If vomiting spontaneously occurs, prevent lung aspiration. Seek immediate medical attention.

**Most important symptoms/effects, acute and chronic:** See section eleven for symptoms/effects.

### Fire and explosives hazards

**Flashpoint:** 105 °F

**Extinguishing media:** Water fog, foam, dry chemical, or carbon dioxide.

**Chemical/combustion hazards:** Carbon monoxide, carbon dioxide, and incomplete combustion products.

**Precautions/personal protective equipment:** Avoid smoke inhalation. Personal protective equipment should include helmet, face shield, bunker coat, gloves, rubber boots, and a positive pressure NIOSH-approved self-contained breathing apparatus.

## Accidental release measures

**Spill or Leak Procedures:** Avoid direct contact. Dike and contain spilled material. Remove source of spill if safe to do so. Evacuate all non-essential personnel from immediate area. Remove/extinguish ignition sources. A vapor-suppressing foam may be used to reduce vapor generation. Absorb with non-combustible absorbent and place in sealed containers for disposal. Control run-off and prevent from entering waterways, sewers, etc. Use non-sparking tools to collect spilled material as well as contaminated absorbent.

## Handling and storage

**Safe handling procedures:** Avoid direct contact. Use adequate grounding when decanting.

**Safe storage:** Keep containers closed when not in use. Keep away from ignition sources.
