# DIAMOND SCREENS

Diamond Screens for Floor Restoration

The DiaMEND system provides outstanding results on polished concrete, natural stone and terrazzo floors. It is one of the most efficient solutions for floor restoration.

- Employs proprietary electroplated technology.
- Diamonds are exposed on screens and don't require any break-in.
- No special equipment required. Use with your existing floor maintenance equipment for low start-up costs.
- Repair traffic patterns and stains before they become more costly issues.
- Use in-house maintenance crews or existing maintenance contractor for light restoration work, without the need for special equipment or training.
- Significantly longer life - up to 3X longer - versus other diamond restoration systems.
